# 1 Introduction

There are a lots of tools available to create a blog. There are intended to different persons from novice to professional.

This document is a tutorial to help you to create your own blog. We consider that you are not a expert, that's why we choose a tool adapt to all public. We will work with *Overblog*.

To realise this tutorial, you need a internet connection and a valide email address.

## 2 Sign up on overblog

The first step is to sign up on overblog. I will explain you how to do this :

1. First, open your web browser (for example *Internet Explorer*  or *Google chrome* .
2. Go on *Google*, type *overblog* in the search bar and validate. Then click on this link :

4. Then you are redirected to this page :

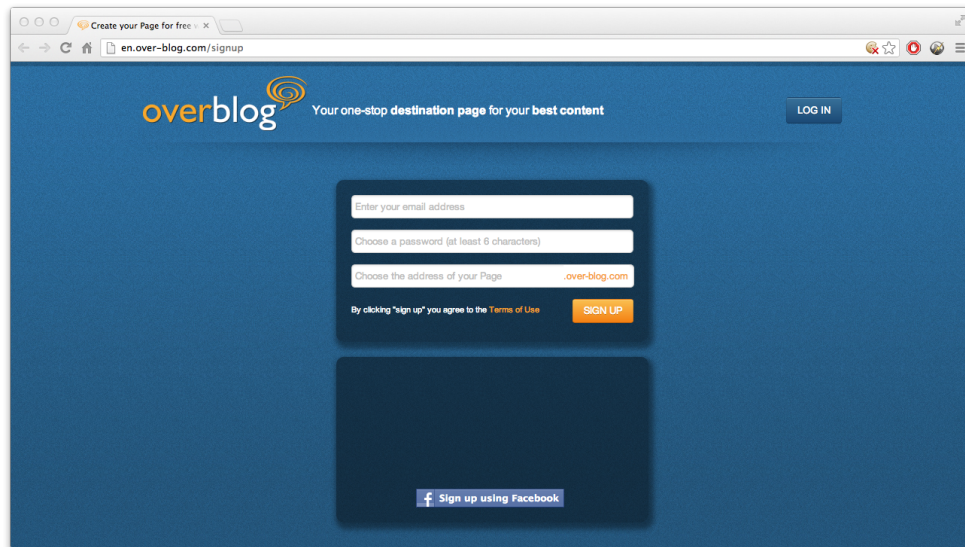

A screenshot of a web browser showing the sign-up page for Overblog. The browser's address bar displays "en.over-blog.com/signup". The page has a dark blue background. At the top left is the "overblog" logo with the tagline "Your one-stop destination page for your best content". At the top right is a "LOG IN" button. In the center, there is a white registration form with three input fields: "Enter your email address", "Choose a password (at least 6 characters)", and "Choose the address of your Page" (with ".over-blog.com" suggested). Below the form is a "SIGN UP" button and a link to "Terms of Use". At the bottom of the form area is a "Sign up using Facebook" button.

You have to enter a valide email address because in the next step you have to confirm your registration by clicking a link wich is send on it. Moreover, you have to enter a password and the begining of your address you want for your blog (you have no choice for the end of the address, she must finish with *.over-blog.com*). Here is an example :

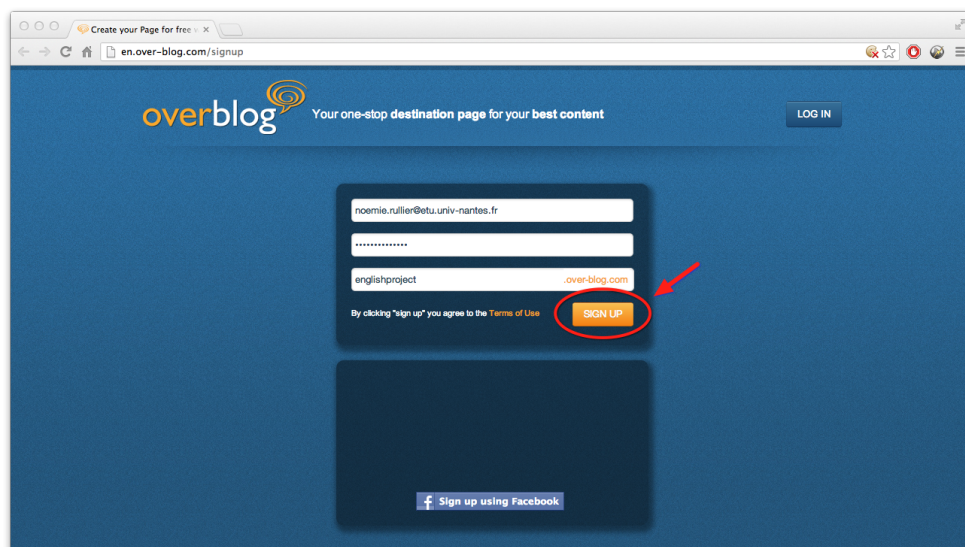

A screenshot of the same Overblog sign-up page, but with example values entered into the form fields. The email field contains "noemie.nulier@etu.univ-nantes.fr", the password field contains "\*\*\*\*\*", and the address field contains "englishproject" with ".over-blog.com" suggested. The "SIGN UP" button is circled in red, and a red arrow points to it from the right. The "LOG IN" button and "Sign up using Facebook" button are also visible.

Then click on *SIGN UP*.

5. Then you are redirected on this page :

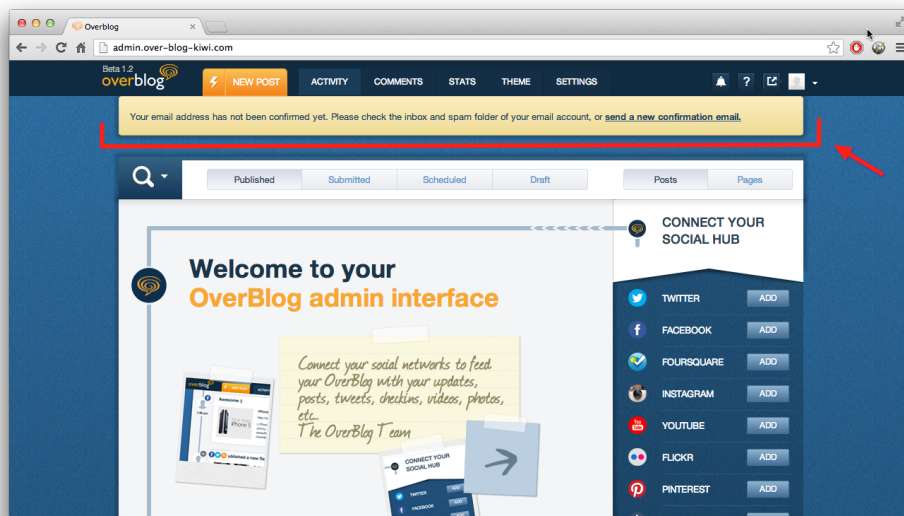

FIGURE 5 – Email address not confirmed

You can see that you have no confirmed you address email. Open your personal information manager, and open the mail send by *marie@overblog.com*. If you don't see this mail, refresh your mail or look in your spam folder. The mail should look like that :

Now you can start to enrich your blog !

### 3 Create an article

## 4 Personalise your blog

## 5 Sharing it

### 5.1 Social linkage

The first time you come to the *Overblog admin interface* you cannot miss this Panel.

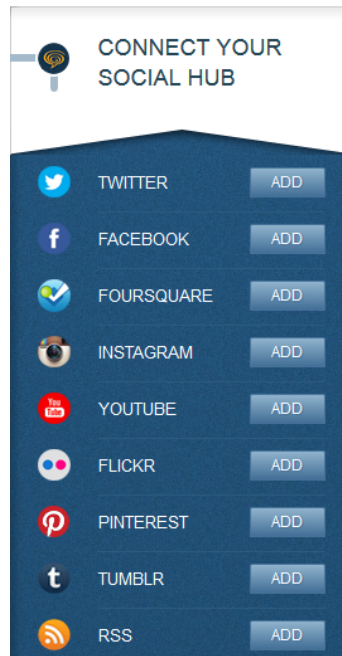

FIGURE 9 – Share panel

You can use it by clicking one of the button, like the facebook button (if you have a facebook account). Then agree with their proposal. With this linkage, you can feed your blog! You are not obliged to rewrite your facebook publications.

In an other way, this linkage can allow your blog to ask your “friends” to see your blog.

### 5.2 Publish it on your favorites social networks !

You can like your publications, or quote it by using the bar just under it.

FIGURE 10 – Like bar

Your are also able to share your article, even your blog, on your favorite social network. You just need to click on one of the following buttons.

### 5.3 Purpose

But why do all that ? To make your friends come to see your blog, comment it, like it, and share it with their own friends ! So more and more people can come to your blog and see your kiwi

jam ! So let's do it.
